

Nov. 2, Vote:

Yes to Health Care

A question on the ballot this November will allow you to vote YES for single payer “Medicare for All” health care.

National Health reform will not control rising health care costs, which are crippling municipal, business, and household budgets. “Medicare for All” would save more than \$9.7 billion in Massachusetts alone - enough to eliminate under-insurance and provide relief to millions of struggling businesses and residents.

How would “Medicare for All” be better?

- **Free Choice** of doctors and hospitals.
- **Universal & Guaranteed:** Everyone is covered for life, regardless of health or employment.
- **Comprehensive:** Coverage for all medically necessary care and prescriptions.
- **Helps Job Growth** by taking the burden of health costs off businesses.
- **Controls Costs** by saving \$9.7 billion in administrative waste caused by private health insurance in Massachusetts.

MEDICARE FOR ALL!
